Education

- 2022 - 2026 **Bachelor of Technology**
National Institute of Technology Agartala
Electronics and Instrumentation Engineering
- 2019 - 2021 **Senior Secondary (XII)**
Shishu Bihar Higher Secondary School
- 2017 - 2019 **Secondary (X)**
Golden Valley Higher Secondary School

Projects

- **Parking lot using counter**
The objective of using a counter system in a parking lot is to manage and monitor the number of vehicles entering and exiting the facility.
- **Heart Beat Sensor**
The objective of a heart pulse sensor is to detect and measure the heartbeat or pulse rate of an individual by sensing blood flow changes in the body.
- **Smart Irrigation Project**
The smart irrigation system intelligently determines the water needs of plants based on real-time data, such as soil moisture levels and temperature.
- **Air Flow Sensor**
The air flow sensor with an Arduino can create a system to monitor the air quality, speed and volume of air passing through a given area.
- **Boost Converter**
A boost converter steps up the input voltage to a higher output voltage using an inductor, switch, diode, and capacitor by storing energy.

Experience

- 2024 - 2025 **IOCL Winter Intern**
Study of reliability enhancement of tripping of SDV of a vessel using Instrumentation.
- 2025 - 2025 **NIC Summer Intern**
Frontend for PIO Module(Right to Information Online).

Skills

- **Programming Languages** : C, C++, Python
- **Software Tools** : VS CODE, Github, Matlab, Ltspice, Microsoft Office(PowerPoint, Excel, Word)
- **Web Technologies** : HTML, CSS, JavaScript, React.js, Vite
- **Technical Concepts** : DSA, OOPS
- **Coursework** : Controller(P,I,D,PI,PD,PID)feedback, feedforward, cascade control
Instrumentation (flow, pressure measurement; temperature, level sensor)
- **Hardware Tools** : Arduino Nano, Multiplexer, flip flop, 7-segment BCD, sensor, IC, PCB, Transistor, breadboard, jumper
- **Communication Skills** : English, Bengali, Hindi
